Ers ei sefydlu yn 1999 bu Fforwm Hanes Cymru yn gyfrwng gwerthfawr i Gymdeithasau Hanes drwy Gymru gadw mewn cysylltiad, rhannu profiadau ac adnoddau a chynnal gweithgareddau ar y cyd.

Eleni pwnc y gynhadledd flynyddol fydd hanes hir amaethu yng Nghymru a chaiff ei threfnu ar y cyd â Chymdeithas Hanes Amaethyddiaeth Cymru.

Bwriad y gynhadledd yw taflu golwg ar hanes amaethyddiaeth yng Nghymru o'r cyfnodau cynharaf hyd ein dyddiau ni. O Oes y Cerrig i'r cyfrifiadur, o gnydau a stoc cyntefig i'r bio-dechnoleg ddiweddaraf, bu newidiadau technegol rhyfeddol ac yn natur ein perthynas â'r tir. Bu chwildro parhaus, yn enwedig o'r 18^{fed} ganrif ymlaen, ac mae'n dal i ddigwydd heddiw er gwell er gwaeth.

Cewch gyfle i glywed a holi nifer o'n harbenigwyr amlycaf yn trafod y pwnc ac, ar y p'nawn Sadwrn bydd stondinau a sesiwn agored i'r cyhoedd. Bydd croeso i unrhyw un ddod a dogfennau, lluniau a chreiriau hefo nhw ac i rannu atgofion.

Since its inception in 1999 the Welsh History Forum has been a valuable medium for Historical Societies throughout Wales to network, share experiences and resources and to run events in partnership.

This year the conference theme will focus on Wales' long and rich agricultural heritage, with the programme being organised jointly with Cymdeithas Hanes Amaethyddiaeth Cymru (*Welsh Agricultural History Society*).

The conference aims to throw light upon how agriculture has changed from the earliest times to today. From Stone Age to semen banks, from primitive crops to bio-technology, farming methods and our relationship with the land have been revolutionised – a process which is still going on, even accelerating.

You will have an opportunity to hear and question a range of eminent speakers, while the Saturday afternoon is open to the public. An invitation is extended to bring documents, photos, implements and to share memories.
